

PANGARD

Performance you can trust

We protect what we value. As the automotive world advances with increasingly sophisticated and higher-value vehicles, paint protection films have become an essential companion. Pangard Paint Protection Film provides superior surface protection, offering defense, enhancement, and long-term assurance. Acting as a near-invisible second skin, Pangard PPF preserves the vehicle's finish while delivering exceptional durability.

With deep expertise in premium pressure-sensitive films and advanced automotive solutions, Pangard has set new benchmarks across fleet graphics, vehicle wraps, and protection films. Our products are recognized for their outstanding performance, ease of handling, and industry-leading reliability.

PAINT PROTECTION FILMS

PANGARD

CLASSIC

Pangard Classic is engineered to provide dependable, high-impact protection for automotive paintwork. It combines elasticity, clarity, and strength to offer exceptional resistance against abrasion, road debris, and environmental contaminants.

Specification:

- Thickness 190 micron
- Warranty: 5 years
- Non-yellowing: UV-resistant formulation prevents discoloration
- Self-healing: Heat-activated topcoat repairs minor scratches
- Hydrophobic Surface: Water-repellent coating for easier cleaning
- High Optical Clarity: Maintains original paint color and gloss

MATTE

Pangard Matte is designed to deliver refined, high-performance protection for automotive paintwork while creating a smooth, satin-matte finish. It combines durability, flexibility, and optical consistency to provide reliable resistance against abrasion, road debris, and environmental contaminants. With its specialized matte surface technology, Pangard Matte preserves the vehicle's modern, non-gloss look while ensuring strong, long-lasting protection in everyday and demanding conditions.

Specification:

- Thickness 190 micron
- Warranty: 5 years
- Non-yellowing: UV-stable construction prevents discoloration
- Self-healing: Heat-activated topcoat repairs light scratches
- Hydrophobic Surface: Water-repellent surface for easier cleaning
- High Optical Clarity: Maintains original paint color and gloss

PREMIUM

Pangard Premium is crafted to deliver superior, long-lasting protection for automotive paintwork. It offers enhanced elasticity, optical clarity, and durability, providing unmatched resistance to abrasion, stone impact, and harsh environmental contaminants. With its advanced surface technology and ultra-refined finish, Pangard Premium ensures a flawless, high-gloss appearance while maintaining maximum protection for even the most demanding conditions.

Specification:

- Thickness 200 micron
- Warranty: 10 years
- Ultra Gloss Finish: Enhanced clarity and shine for a showroom-quality appearance
- Self-Healing Technology: Rapid heat-activated recovery from fine scratches and swirls
- Non-Yellowing: Advanced UV inhibitors for long-term optical stability
- Hydrophobic Nano-Coating: Superior water beading and easier maintenance
- High Optical Clarity: Maintains original paint color and gloss
- High Elasticity TPU: Better conformability on curves and complex surfaces
